Changing Your Sound Preferences

Step 1:
- Open Control Panel by clicking the Start button and find Control Panel on the right menu.
Step 2:
- Click on the green **Hardware and Sound** link. Then click on **Manage Audio Devices**.
Step 3:
- Make sure SII SPRT RPT is highlighted. This is the Sound bar.
- Click Set Default. Then click OK when you are finished.
- Make sure the Telephone is set as the Default Communications Device. If it is not, right click on it, and select Set as Default Communications Device.
- You can change your microphone settings from the Recording tab.
- The microphone provided in ESB Studios is USB Audio Codec.

---

Step 4:
- You can change the name of the device. Double-click on SII SRPT PRT.
- Click in the blue area, and begin typing “Sound bar” for example. When you have entered the name you like, click ok.
